---

## Experience:

### **Outscore, UI/UX Developer** | Berkeley, CA

*Mar 2017 - Present*

Outscore is a Berkeley based start up providing management software and data analytics for eSports.

- Critiqued and improved original website design to present information in a more efficient and aesthetic manner
- Worked closely with founder to create a landing page design that would inspire target audience to sign up for Outscore's services as well as create graphic features that represent company values
- Researched javascript charting libraries in order to provide easy to read data for users

### **Computer Science 61A, Lab Assistant** | Berkeley, CA

*Aug - Dec 2016*

- Assisted 30+ students by walking through concepts and homework problems

### **Academic Talent Development Program, Teaching Assistant** | Berkeley, CA

*June - July 2016*

- Helped instructor foster a creative and safe space for students to learn and grow as public speakers by providing encouraging and constructive feedback and participating in class activities
- Collaborated with instructor to improve course by brainstorming new activities encouraging students to think critically
- Assisted instructor with administrative duties

### **Fresh U, Writer** | Berkeley, CA

*Sept - Dec 2015*

- Worked closely with writers to publish original content by writing and critiquing articles related to fashion and focused towards helping first year students adjust to college
-
