WORK EXPERIENCE

UI DEVELOPER @ OUTSCORE
March - October 2017

Outscore is a Berkeley based start up providing management software and data analytics for eSports teams.
• Critiqued and improved original website design to present information in an easier to read and visually appealing manner by working through 3 iterations of mockups
• Designed landing page including graphic design features and icons

LAB ASSITANT for CS61A @ UC BERKELEY
August - December 2016

• Assisted 30+ students in CS61A: The Structure and Interpretation of Computer Programs with concepts and weekly assignments

TEACHING ASSISTANT for PUBLIC SPEAKING @ ATDP
June - July 2016

• Helped foster a creative and safe space for students to learn and grow as public speakers by providing encouraging and constructive feedback and leading class activities
• Collaborated with instructor to improve course by brainstorming new activities encouraging students to think critically
• Assisted instructor with administrative duties

WRITER/EDITOR @ FRESH U - BERKELEY CHAPTER
September - December 2015

• Wrote and edited articles related to fashion and focused towards helping first year students adjust to university life

PROJECTS

SURVEY for MINORITIES AND PHILOSOPHY
Conducting a survey with 4 other undergraduates on diversity in the UC Berkeley philosophy department regarding staff, courses offered, course readings and major requirements. We plan to use the data to move the department towards increased inclusivity, representation, and anti-oppressive practices.

THEHELINI.GITHUB.IO
Designed and built personal site/blog using HTML/CSS and JavaScript

WEBSITE for PHILOSOPHY FORUM
Currently designing and building website for Philosophy Forum to keep students updated on current club and department events
